Q4 2025 Financial Performance Report

1. Executive Summary

The fourth quarter of 2025 concluded with exceptional performance, driven by a 22% increase in year-over-year revenue. Our strategic shift toward subscription-based AI services has successfully improved margin stability. We have achieved a total quarterly revenue of $128M, surpassing our initial forecast of $118M.

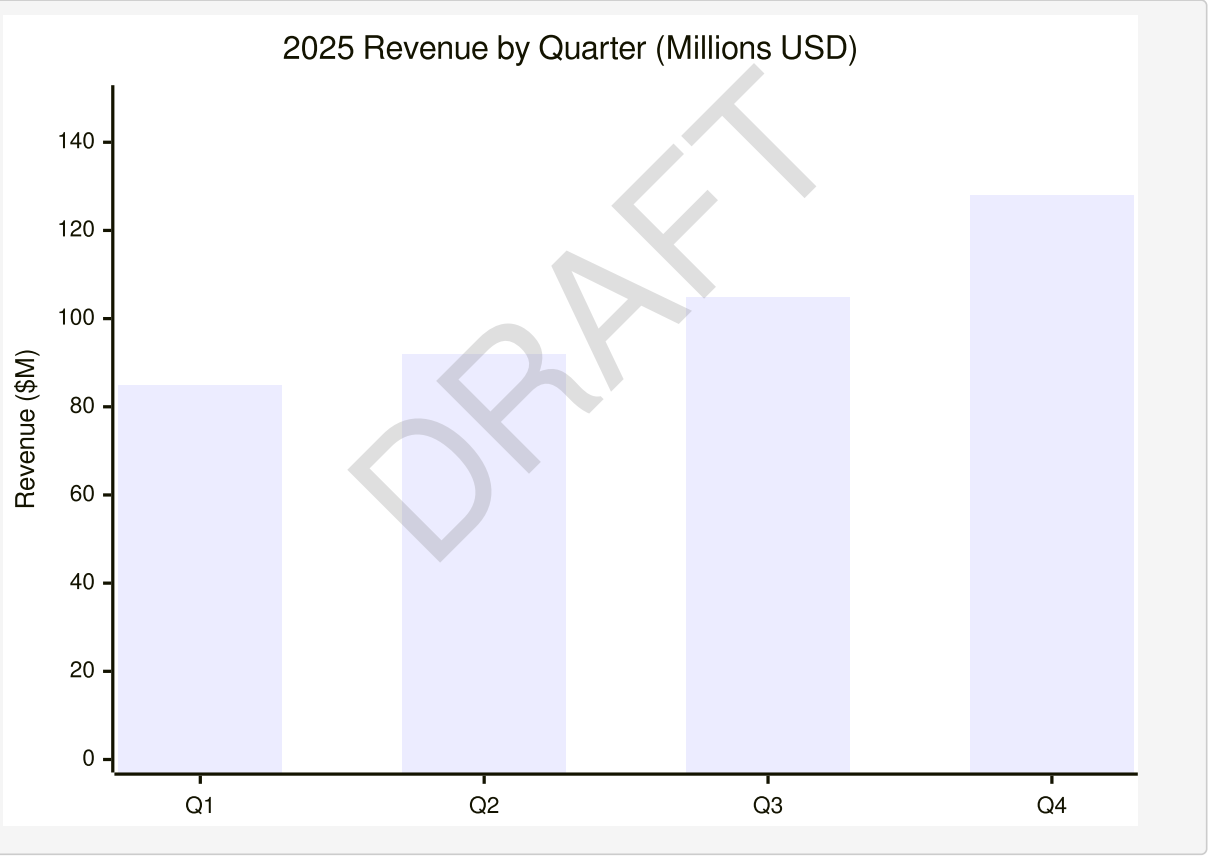

Key Highlights:

- **Net Income:** $35M (up 45.8% YoY)
- **Operating Margin:** Increased to 27.3%
- **Global Expansion:** European markets now account for 15% of total revenue.

---

2. Revenue Growth

The following chart tracks our steady revenue climb throughout fiscal year 2025.

---
